Hey,

I've completed the first draft of the user manual and testing manual. I couldn't do the screen shot for the user manual. If one of you guy run the application and give me the screen shot to put on the document to turn in it would be great. I also upload this on git hub.

Sleep time for me since its almost 6am.

Thanks,  
Hieu

Here's screens of the program with and without loaded test data. You might use the one without test data, I don't think the final version will look like this after loading test data.

We're gonna review in class before you turn it, right?
