Hi Dr. Ok and Dr. Guo, this is James Rowe from the team that's been working on the Image Processing software for Leidenfrost-Ratchet systems. We're nearing completion of the project, so we were wondering if we could meet up with one or both of you to demo the software and get your feedback on the current product.

We would like to meet up tomorrow if it's possible (even better if we can meet up between 2:30 and 4:00 pm), but we're flexible and able to do the demonstration at any time. Let us know if there's a good time we can meet up.

Thanks!

James Rowe

James,

I will be available this afternoon from 3pm.  
How about you, Dr. Guo?

Thanks,  
JT

James,

Can we meet some time next week?

Thanks,  
JT
